

BLOWTORCH

August 17th, 2007 Issue

The work situation continues to improve both locally & throughout the UA.

Steve Allen, Special Representative, with the UA was in town last week for a meeting with the Locals from the Western-Central Region. Also in attendance was Barb Dolim with the National Mechanical Contractor's Association (MCA). Steve discussed the marketing strategies that the UA has implemented. The UA wants to continue to be the leader in the Construction Industry. This means getting the UA message out to those who need to know in the community (schools, community leaders, etc.) & also to members of the Locals. Steve toured the new building & he was very impressed. He felt that we were on track with the UA's objectives in technological progress & continuous improvement that is needed to keep us on top in our industry.

There are many job opportunities for travel, please call Bill Kurtz if you are interested.

Local #13's new website is up and running www.ualocal13.org ! There is quite a bit of information to be found on the site including agendas, activities and general updates. I encourage you all to check out the site now and throughout the year.

A reminder to make sure to contact the Union Hall if you change job locations for any length of time. Be sure that you call the Union Hall when you go to work and to keep in touch with Bill Kurtz on the latest opportunities. I cannot stress enough the importance of signing the unemployment book at the hall when you are out of work. This helps us know when you are unemployed and when you become eligible for the Security Benefit Funds. Again, please remember to sign the unemployment book.
